return to the House of Commons of a majority of less than 120 Gladstonians.
DR. MACKENZIE AND THE PRESENT AND LATE EMPERORS.

EDINBURGH, 6th July.
Dr. Mackenzie, in his speech, will point out the accuracy of the interview published in the Dutch *Tijdspiegel*, in which he was represented as admitting that he had concealed the cancerous nature of Emperor Frederick's malady in order to prevent a regency. The *Sachsen*'s correspondent asked the Doctor if the statement in the Italian press that the present German Emperor is suffering from an incurable malady were true. Dr. Mackenzie replied that it was very mostly exaggerated, but it was a fact that Emperor William had an ear complaint, which was not mentioned with danger, although many persons similarly afflicted had lived to an old age. Emperor William had, had infantile paralysis of the arm, which had impeded his growth, and was the cause of his being such a short man, unlike his father. The paralysis had slightly shortened his arm, so that he used it well and was otherwise active and strong.

Pairs, 8th July.

Dr. Mackenzie, in his interview, said he was glad to leave Berlin, where his movements were closely watched. "Emperor Victoria," he said, "was surrounded by spies after the death of Emperor Frederick. I was confined at Potsdam for several weeks. Emperor William's conduct was excellent, but I think his health has suffered much. His malady has affected his brain. I can say nothing of the late Emperor's malady."

THE PACIFIC CABLE.

MONTREAL, 7th July.
A cable dispatch from London says:—A complete breakdown of the Eastern Telegraph Company's system between Japan and Peru, due to a strong gale, has cut off all communication with a Pacific cable from Vancouver to Australia. This was voted at the annual meeting of the New Oriental Bank. The Chairman said he went East recently over the Canadian Pacific road and was convinced that a cable by way of Canada and Australia would greatly benefit the commerce of the empire. The opinion was expressed that the Imperial and Colonial Government should hasten the proposed survey of the route.

NO UNDERSTANDING REACHED BETWEEN RUSSIA AND AUSTRIA.

VIENNA, 7th July.
Well informed persons here say that an understanding has been reached between Austria and Russia regarding the Eastern question. The Russians consented to a truce, and the Austrians agreed to a building stoppage, while Austria for the army around Warsaw, which place has been transformed into a fortress, and Russian forces on the frontier are also being drawn.

THE SOUTH POLE.

BERLIN, 7th July.
The South Pole expedition planned several years ago by Dr. Neumann of the Marine Observatory, Hamburg, is likely to start in October. The Imperial Government was asked to defray the expenses, and Emperor William made a favorable response, referring the question to the Committee of the Admiralty.

SPUDEN'S FAITH.

London, 7th July.
It is reported that Sprague is about to join the Presbyterian Council. Rev. Robert Taylor is urging Sprague to meet the Pan-American Convention, and declare at once his adherence to the faith.

QUEEN NATALIE'S FATHER THREATENS A REVOLUTION.

LONDON, 7th July.
The Russian party in Siberia threatens a revolution in favour of Queen Natalie, the object being to depose King Milas and place Natalie on the throne. He also states that he intends henceforth to maintain the strictest silence respecting the late Emperor's illness and German politics. After taking a rest he will prepare a full personal report of the case.

LONDON, 10th July.

Dr. Mackenzie arrived in London to-day and was received by a host of friends. In an interview he denied several statements attributed to him, and says he has not talked with any reporters since he left Berlin. He also states that he intends henceforth to maintain the strictest silence respecting the late Emperor's illness and German politics. After taking a rest he will prepare a full personal report of the case.

THE COPEL BIRD.

LONDON, 7th July.
A financial crash of considerable dimensions is imminent. The French copper ring, according to accredited statements, is about to break up and involve a number of the great money men of Europe. Von Thyssen says the crash will work more widespread ruin in France than has ever been inflicted on a nation by any other similar affair.

NARROW ESCAPE OF PRINCE ALEXANDER.

DARMSTADT, 9th July.
Prince Alexander of Battenberg was driving from Hellebergensdorff into Stettin's Valley yesterday when his horses shied and the carriage was hurried from the road down the side of the mountain. Alexander was thrown out and fell a distance of forty feet, when he grasped some shrubs and escaped with slight injuries. His carriage was terribly mangled and killed and the carriage was dashed to pieces.

THE SULTAN'S SCARS.

CONSTANTINOPLE, 9th July.
The Sultan, fearing that Austria may be induced to make concessions to Russia in Bulgaria, that will be equivalent to a restoration of the San Stefano interests, has ordered the Treasury to extract an extraordinary sum of 10,000,000. The Porte has received negotiations for loan with the Ottoman Bank.

MARLBOROUGH AT HOME.

LONDON, 10th July.
I saw the Duke of Marlborough this afternoon at the residence of his mother, the Dowager Duchess of Marlborough, in Grosvenor Gardens. He was in excellent spirits, for which he is a very even-tempered and cheerful, undemonstrative man. His hair is now half grey. "Yester-Daith," The Duke put his hand on a paragraph in this morning's Standard, cabled from New York, to the effect that many lawyers there were of the opinion that his recent marriage with Mrs. Hanmer was illegal.

"I know what you want to see me about," he said, "but I am afraid it is a subject which I cannot speak about. I have no doubt those who have so kindly stopped forward and given their opinions in the matter without hope of a fee are very wise men indeed, but," and here the Duke smiled dryly, "I have learned something of law by experience and am sure the service performed by Major Hewitt in the presence of the accredited representative of the British Consul-General is without fault."

Princess Christian leaves Windsor next week on a visit to Empress Victoria at Potsdam, where she will remain till August 21st, when the court is removed to Berlin. Her Majesty, on leaving the Isle of Wight, will travel direct from Gosport to Poole, arriving there on the morning of the 22nd, and will stay at Blythwood, the family seat of Sir Archibald Campbell, where extensive preparations are being made for the royal visit, until the evening of the following day, when the journey to Balmoral is to be made.

The Emperor of Brazil, who is residing at Aix-les-Bains, made a wonderful cure. He has married and for his wife chose his wife and married again, canon New York, where he met his beloved daughter, whom he had never known. He took her from the street and won her love and trust. The first wife coming here to attend her daughter in childbirth discovered the truth and revealed all.

LONDON, 10th July.

The Liverpool St. George stakes were won today by Stronger.

The race for the Molinex cup was won by Mackenzie's horse. Upset at the first Royal Windsor meeting. The race for the Royal plate that will be equivalent to a restoration of the San Stefano interests, has ordered the Treasury to extract an extraordinary sum of 10,000,000. The Porte has received negotiations for loan with the Ottoman Bank.

The Porte has received negotiations for loan with the Ottoman Bank.

PRINCE ALFRED'S SCARS.

ST. PETERSBURG, 6th July.
The Sugar Bombers' Convention has been accepted by the Russian Government.

SAINT-PETERSBURG, 6th July.
The Pope is preparing an encyclical on relations between the church and State. An encyclical on social questions will be published during the year.

SAINT-PETERSBURG, 6th July.
The steamer *Ville de Bruxelles*, belonging to the General Transatlantic Company, collided and sank the steamer *Charles*, built at Vancouver, to Australia. This was voted at the annual meeting of the New Oriental Bank. The Chairman said he went East recently over the Canadian Pacific road and was convinced that a cable by way of Canada and Australia would greatly benefit the commerce of the empire.
